THE STANDARD

LIFE ASSURANCE COMPANY.

THIS COMPANY was established in 1825, and is one of the largest and most successful of the Life Assurance Institutions of Great Britain. Its Income exceeds £700,000 per annum; and its Accumulated and Invested Funds amount to upwards of Four Millions Sterling. Its Profits have been very large, and Persons assured have derived very valuable benefits from their connection with the Company. The STANDARD has also acquired a marked character for liberal management, being the first institution which relieved Policies of Assurance from restrictive and unnecessary conditions, and gave such contracts increased value and stability in other ways.

In 1846 the Directors of the STANDARD LIFE ASSURANCE COMPANY, being impressed with the conviction that Life Assurance in India and the Colonies might be safely undertaken at rates commensurate with the risk, turned their attention to the extension of their business to these quarters: and after long and careful inquiry, resolved to establish a new Company, having for its particular object Colonial and Foreign Business.

The Colonial Life Assurance Company was then established, and for twenty years maintained a large business in India and the Colonies, conferring important benefits on many persons whose families would have been left in poverty and distress had they not had the advantage of Life Assurance brought home to them. Its progress was most satisfactory in every respect. It realised large Profits, in which the Policyholders participated, and it secured a large and influential connection.

In 1865 the Directors of the Standard Life ASSURANCE COMPANY and the Directors of the COLONIAL COMPANY considered it would be for the interest of all connected with these Companiesseeing that the Direction and the Management were composed very nearly of the same persons-to form an amalganiation between them; and the junction was completed on 19th March 1866.

The joint institution will henceforth be carried on under the title of

The Standard Life Assurance Company.

In the course of its career the Colonial Life ASSURANCE COMPANY introduced new and important features into Life Assurance practice, by publishing rates calculated for Foreign residence, and by establishing Agencies abroad, thus affording increased facilities to persons whose views or occupations might lead them to travel or reside in other countries. By its means also the benefits of Life Assurance were extended to India, and to the Colonies of Great Britain generally, on such beneficial terms, and under such liberal conditions as improved knowledge and the circumstances of the times authorised and required.

The STANDARD LIFE ASSURANCE COMPANY will carry out its Colonial and Foreign Business under the same liberal conditions which characterised the COLONIAL COMPANY, with the same staff of Officers and Agents; and the Directors of the Company will make it their study to maintain for the united Company the high and honourable name which has hitherto characterised both Institutions under their separate management.

THE RATES OF THE COMPANY,

which have been calculated on data derived from the most authentic sources, will be found moderate, and, looking to the facilities and advantages afforded, they are undoubtedly more advantageous and less expensive than those of any other Office transacting the same class of business.

DIVISION OF PROFITS.

The first Division of the Colonial Company's Profits took place as at 25th May 1854, the second

at 25th May 1859, and the third at 25th May 1864. when large additions were made to all Policies effected in the Participation Scheme of the Company. An additional Bonus was also added to Policies at 15th November 1865, so as to alter the future periods of Division of Profits to correspond with those of the STANDARD COMPANY

The additions to Policies of larger or smaller amount are in the same proportion. Those who did not wish to add the amount of the Bonus to

the Sum Assured were permitted to take the value of the addition in a present sum, or to apply its value to the reduction of the Annual Premium for five years.

For Example.

- 1. A person resident in Class A, aged thirty, assured his life in 1847 for £1000, and the Bonus Additions to the Policy announted in 1864 to £310. Those additions may be surrendered for a present cash payment of £126:16:10; or by surrendering £291:12:4 of the amount, he will be relieved of payment of his Premium for five years, the Company being liable, should he die during that period, to pay to his Heirs the original Sum Assured, and the balance of the Bonus Additions not surrendered—viz. £18:7:8. This Policy will be entitled to future additions at the end of each period of five years the party survives.
- 2. A person resident in India, aged forty-five, effected an assurance on his life in 1850 for £1000, and the Bonus Additions to the Policy amounted in 1864 to £250. Those Additions may be surrendered for a present cash payment of £150:4:2; or they may be applied to reduce the Annual Premium for the next five years, making the Premium £28 instead of £61:15s. This Policy will be entitled to future additions at the end of each period of five years the party survives.
- Policies entitled to participate in Profits will participate proportionately hereafter in the Profits of the united Companies.
- The next Investigation and Division of Profits will be made at 15th November 1870, and quinquennially thereafter.

GENERAL REGULATIONS & CONDITIONS.
